[RESERVE TODAY](#)

Albania has been in the limelight recently as the Minister of Economy and Energy of Albania met Azerbaijan's national oil company to discuss the development of the Southern Gas Corridor and the implementation of the master plan for the gasification of Albania. Azerbaijan and Albania are now working closely on projects providing alternative gas sources and transport routes from Azerbaijan to south-eastern Europe, which will contribute to the development of Albania. This issue will be extensively assessed by the Minister of Energy himself at the Albania Oil, Gas & Energy Summit.
